# ACADEMIC ENGAGEMENT WORKSHOP

The Randall Preserve is an exciting new addition to our local park system. Sitting adjacent to Costa Mesa, Newport Beach, and Huntington Beach is a 387-acre property permanently protected from development.

UCI Nature, Orange Coast College, Coastline College, and Coastal Corridor Alliance are pleased to co-host a workshop to explore opportunities for academic engagement with the planning process (and beyond) for the new Randall Preserve/Genga.

There are four plans being created. Key goals of this discussion include building a framework for commenting when plans are released this Spring and then identifying future collaboration opportunities.

14 APRIL 2025

12:30 PM – 5:00 PM

UC IRVINE CAMPUS

## DRAFT AGENDA
